## **Risk, Information Security, and the 7 Pillars**

During this three-hour course, Shane Clancy will discuss information security and how it is impacting businesses today. He will use the experiences gained through a career of both attacking and defending computer networks to illustrate the common weaknesses exposed by attackers from both outside and inside your company. During this discussion he will address risk assessments (as specified by ALTA), the differences between compliance and security, as well as the lifecycle of an ALTA audit. Participants should expect to gain knowledge that can be immediately applied to their own businesses. Active interaction between the speaker and the audience is encouraged.

**NOW in MEMPHIS!**- To better accommodate the needs of our members, Tennessee Land Title Schools are now being offered on numerous dates. We hope that between the FOUR locations, you will find one to fit your schedule. Make note of the times for each location.

### **TAKE ADVANTAGE OF YOUR TNLTA MEMBERSHIP!**

In addition to the already discounted member rate, our members may take advantage of an additional discount for multiple attendees from the same office. The first member registrant will pay \$75. Each additional registrant from the same member company will pay only \$50.
