E-Recording is the process of recording documents via the Internet that would otherwise be walked into the county or sent by express mail.

Simplifile is a web-based service where you securely log in and scan or upload your documents for recording in counties across the nation. After your documents are sent through Simplifile, the county receives, reviews and records the documents — typically within minutes.

Checks are no longer necessary. Simplifile pays the county for you and then electronically pulls the fees via ach debit from a designated bank account the next business day.

- Reduces the recording gap
- Documents recorded in minutes
- Avoid mailing costs, traffic, and wasted time
- Eliminate check writing expenses
- Increase effectiveness and efficiency

To get started, contact our Simplifile Tennessee representative, **Barbara McLean**, at **800.460.5657 x1033** or **bmclean@simplifile.com** to setup your account.
