How Harvesting Works

- ▶ Open Archives Initiative (OAI) has defined how machines share Protocol for Metadata Harvesting (PMH)
- ▶ Harvesting is done in advance of the search
- ▶ External source indexed locally
 - Allows for better performance
 - Possibility for normalization / processing of data, de-duplication, & other added value

Unified Search Experience

- ▶ Promote local use of all collections with the Encore discovery services platform
- ▶ Harvested records appear interfiled with catalog search results

Users Finding Resources

- ▶ With Encore, user doesn't have to consider:
 - What kinds of resources they prefer
 - What kinds of resources the library may own / have access to
 - How the library may organize its resources
- ▶ Easily manipulate search results with facets to focus on preferred resources, etc.

Scottsdale Public Library Digital Collection

Welcome to the Scottsdale Public Library's digital collection. Here you have access to digital images of cultural and historical interest to Scottsdale residents as well as to students, researchers and others. This collection showcases the history and growth of what has changed from a small farming community into a world-class city. At present, the collection's time period spans the late 1800s to the mid-twentieth century and beyond. The collection contains digital versions of increasingly valuable, fragile and hard-to-use originals of people, places, and things pertaining to the City of Scottsdale. This project is a work in progress so please visit often!

Educating Engineers as Global Citizens: A Call for Action / A Report of the National Summit Meeting on the Globalization of Engineering Education

John M. Grandin, *University of Rhode Island*
E. Dan Heileman, *Purdue University*

Abstract

Their goal was to consider the changes and challenges brought about by the recent wave of globalization and to ask, as so many colleagues are doing around the country, what proactive steps need to be taken by engineering educators to ensure that their graduates are prepared to be productive citizens and professionals in today's and tomorrow's complex world. Encouraged and supported by the National Science Foundation (NSF) and its Division of Engineering Education and Centers, the group began its meeting with observations and advice from three executives in the contemporary global business arena. It was then tasked with a review of the rationale for incorporating global perspectives and skills into the engineering curriculum, as well as the urgency for doing so. The reasons for the generally slow response among engineering educators to this matter nationally, when compared to other nations in the industrialized world, were also explored. After consideration of the potential impact of the current economic downturn on this issue, the summit reviewed information about existing successful models and best practices for a more global engineering education at colleges and universities across the country in an attempt to answer the following questions: To what extent are American engineering programs sending their

A screenshot of the West Bloomfield Township Public Library Summer Reading website. The page has an orange header with a login section (Username, Password, Log In) and navigation links (Register, Programs, Materials, If Contact). The main content area is white with orange text and features a graphic of three book covers: "ROCK'S Under the BIG TOP", "LIVE at the Library", and "LIVE at the Library".

What is Summer Reading?
Summer Reading is a fun way to keep reading all Summer long! SR is open to Residents of West Bloomfield Township, Keego Harbor, Orchard Lake or Sylvan Lake who have a library card in good standing as well as non-residents of West Bloomfield Township, and their siblings and parents, who are enrolled in the West Bloomfield School District and have a library card in good standing from their home community.

Research shows that children who read five or more books during summer vacation gained more in reading achievement than classmates who took a break from books. The Library's Summer Reading program makes it easy to fit at least five books, magazines, audiobooks, graphic novels or other reading experiences into your summer plans.

Registration
Summer reading runs June 12, 2010 – August 27, 2010. Register for Summer Reading at the Main Library or Westlakes Branch beginning Saturday, June 12, 2010; join anytime throughout the summer. [Register](#) through the Online Library or at the Library.

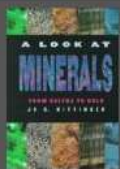

Registration for Summer Reading 2010 is open to:

- Residents of West Bloomfield Township, Keego Harbor, Orchard Lake or Sylvan Lake who have a library card in good standing.
- Non-residents of West Bloomfield Township, and their siblings and parents, who are enrolled in the West Bloomfield School District and have a library card in good standing from their home community.

SLJ Reviews 2001 February

Gr 3-6-These series titles are simple in appearance and format, with large type and lots of white space. Profusely illustrated with full-color and black-and-white reproductions, maps, and photographs, the texts are quite readable, sometimes engagingly so, providing a good introductory overview of the historical sites or event being treated. Unfortunately, many of the quotes are unattributed and the picture captions fail to acknowledge which selections are artists' renderings. The primary weakness in these accounts, however, is in the omission of the Native American perspective on the Jamestown settlers or the Lewis and Clark expedition. The failure to acknowledge that the story of the past is not the same for the different peoples involved is a missed opportunity and poor historiography.-Nancy Collins-Warner, Neill Public Library, Pullman, WA Copyright 2001 Cahners Business Information.
